

ThompsonHouse

Skilled Nursing ■ Residential Care

November 24, 2020

Dear Thompson House Residents, Families, Staff, and Friends,

I am sorry to announce that we have temporarily ended in – person visits at Thompson House. News last week that two of our four neighboring facilities have active positive cases among residents and staff necessitated a re-evaluation of our infection control measures at Thompson House. This, coupled with the significant increase in cases in our community at large, made it clear that increased measures to protect the residents was required.

We have additionally begun COVID testing staff members every two weeks, depending upon these results, other changes may become necessary. We appreciate your continued understanding as we take these measures to protect our residents.

In understanding the importance of visits to our residents, we will be re – evaluating our in – person visitation policy weekly. Please check the website on Friday for any changes which will take place the following week on Monday.

Thank you for entrusting the continued safety of your loved one to Thompson House. We remain vigilant in our commitment to their well – being.

Sincerely,

Dane A. Rank, Administrator
